... OUR POINT OF SALE ...

WHO WE *are*

Love Struck is a premium frozen drinks company selling **award winning** natural smoothies, shakes & soups. Started by Richard Canterbury in 2004 with just one smoothie stall in Borough Market, London - our range is now available in **over 8,000 outlets across the world.**

And we go the extra mile to make sure everything we make is bursting with flavour and the very best it can be **nutritionally, ethically and environmentally.** That's why we're super proud to be a BCorp.

All our smoothies and milkshakes come in **ready-to-blend frozen pre-mixes** that can be whizzed up in an instant.

It's as simple as that!

Whilst our **award-winning** smoothies speak for themselves, we've got plenty of **fun and eye-catching ways** to help your customers discover that Love Struck Smoothies and Shakes are just a step away!

If you're in a busy row of shops and want to stand out, some **bold, creative signage outside** could be just the thing to grab their attention. Our unique, colourful and mouthwatering branding gives you that extra little boost to spread the word and showcase what's waiting inside!
