MÖVENPICK®

Crafted with the Alpine Spirit

DISCOVER THE MÖVENPICK ICE CREAM EXPERIENCE

We strive for excellence in everything we do for you to experience the unique taste sensations which have always been a feature of Mövenpick ice cream.

A passion for the extraordinary, the very best natural ingredients and the savoir faire of the Mövenpick craftsmen have always formed the basis of Mövenpick's refined creations.

The most important ingredient in ice cream is cream! So we use only the best. Our farmers have small farms which are located in the serenity of the Alps. Our cows are mostly in open stalls and lawns, fed primarily on grass, flowers and herbs.

A guide to compostable packaging & waste

Going plastic-free and keen to understand more about waste? Cut the confusion with this handy guide by Vegware, the global specialist in plant-based compostable foodservice packaging.

Recyclable

Everyone likes the word 'recyclable' but in reality, conventional foodservice packaging can't be recycled.

Kept separate, dry card or paper can be recycled. So can plastic water bottles or metal drink cans. But used catering disposables are a mix of card, plastic and food, so food contamination is inevitable. This combination creates massive recycling challenges, so the result is often incineration or landfill.

With compostable disposables, food isn't contamination, it's a vital ingredient in the composting process.

Biodegradable

Biodegradable means something breaks down naturally, but it can take years. Biodegradable tells us nothing about timescales – for example, wood is biodegradable, but a log cabin can stand for generations.

When it comes to biodegradable, there is no guarantee it will break down in commercial composting.

Compostable = biodegradable, in under 12 weeks!

Compostable means something can break down in under 12 weeks, and is therefore suitable for commercial composting together with food waste.

Commercial composting creates the perfect balance of microbes, moisture and warmth. So instead of being buried or burnt, your compostable catering 'waste' creates nutrient-rich compost that helps plants thrive.

At Colicci, we place a very high value on professionalism, consistency and service standards. We have traded together since 2002, and that longevity speaks volumes. Over more than two decades, Consort have demonstrated reliability and a clear understanding of what high-quality food service operations require.

Karen works really well with our Walls rep to go through New Products each year. At the onset she was on hand to help ensuring smooth running deliveries, and the driver is fantastic by taking stock straight to our storage unit.

Ordering with Consort is always really good on the Consort App.
